How to Design and Conduct a Case Study. The advantage of the case study research design is that you can focus on specific and interesting cases. This may be an attempt to test a theory with a typical case or it can be a specific topic that is of interest. Research should be thorough and note taking should be meticulous and systematic.

Case Study Research Design - How to conduct a Case Study

Different types of case study research methods. In business research, four common case study approaches are distinguished. First, there is the "no theory first" type of case study design, which is closely connected to Kathleen M. Eisenhardt's methodological work. The second type of research design is about "gaps and holes", following Robert K. Yin's guidelines and making positivist assumptions.
