Sani Professional ® Disinfecting Multi-Surface Wipes (formerly Sani Cloth® Wipes) offer all the disinfecting power you need to prevent the spread of germs on high touch surfaces. These disinfecting wipes kill 99.9% of bacteria in just 15 seconds\*, plus they're bleach-free and alcohol-free, making them user-friendly so your staff will be motivated to disinfect regularly.

### **Bleach-Free, Alcohol-Free Disinfecting Surface Wipes ...**

Task. Purpose. Clean. To remove dirt and debris by scrubbing and washing with a detergent solution and rinsing with water. The friction of cleaning removes most germs and exposes any remaining germs to the effects of a sanitizer or disinfectant used later.

### **CFOC Standards Database | National Resource Center**

Properties. A perfect disinfectant would also offer complete and full microbiological sterilisation, without harming humans and useful form of life, be inexpensive, and noncorrosive. However, most disinfectants are also, by nature, potentially harmful (even toxic) to humans or animals. Most modern household disinfectants contain Bitrex, an exceptionally bitter substance added to discourage ...

When it's time to get your eyes checked, make sure you are seeing the right eye care professional for your needs. Ophthalmologists, optometrists and opticians are the members of the eye care team who people see most often. Each one plays an important role in providing eye care, but many people confuse the different providers and their roles in maintaining your eye health.
