Overview. The ancient Greek δεικνυμι (transl.: deiknymi), or thought experiment, "was the most ancient pattern of mathematical proof", and existed before Euclidean mathematics, where the emphasis was on the conceptual, rather than on the experimental part of a thought-experiment. Perhaps the key experiment in the history of modern science is Galileo's demonstration that falling objects ...

Thought experiment - Wikipedia

Confirmation Bias, Ethics, and Mistakes in Forensics "The eyes are not responsible when the mind does the seeing." – Publilius Syrus 1 Introduction Confirmation bias is when people observe more, give extra emphasis to, or intentionally look for evidence that would validate their existing beliefs

and expectations and are likely to excuse or completely ignore [...]
