English grammar is the grammar of the English language. Grammar is the rules about how to speak and write in a language. English grammar started out based on Old English, which is considered to be a Germanic language.

English grammar - Simple English Wikipedia, the free ...

English grammar is the way in which meanings are encoded into wordings in the English language. This includes the structure of words, phrases, clauses, and sentences, right up to the structure of whole texts. There are historical, social, cultural and regional variations of English. Divergences from the grammar described here occur in some dialects. ...

Tense is the form of a verb that takes to show the time it happened. There are three main tenses: Present tense: things that are true when the words are spoken or written. Example: She goes to school. In this sentence, goes shows that it is a present tense. It suggests that she regularly goes to school.

Tense (grammar) - Simple English Wikipedia, the free ...

In formal language theory, a context-free grammar (CFG) is a certain type of formal grammar: a set of production rules that describe all possible strings in a given formal language. Production rules are simple replacements. For example, the rule \rightarrow replaces with $.$ There can be multiple replacement rules for any given value. For example,
