The Growing Dome greenhouse is a state-of-the-art greenhouse perfected over 25 years of business. Its unique and innovative design means the Growing Dome requires little or no heating, as it relies on the natural power of the sun to empower you to create your own indoor garden.

Solar-Powered Geodesic Dome Greenhouses | Growing Spaces

Itasca Greenhouse grows 2-3 million containerized tree seedlings in three crops per year. With our greenhouses utilizing co-generation heat from our local power station, and with our management efficiency, we are able to produce high quality containerized seedlings at low cost.

Itasca Greenhouse - Tree Seedlings-Conifer, Hardwoods ...

When Susan Wyman of Gunnison Gardens in Colorado contacted us last year about building a greenhouse with Faswall's highly insulated block forms, we could immediately see the benefit of using our eco ICFs for the project. Greenhouses work by enhancing solar gain. Add the heat-retaining thermal mass and Faswall's insulating blocks, and it seemed likely that this greenhouse would work better ...

Growing Food Year-Round with a Faswall Greenhouse

Caring for my hanging basket tomato plant is so easy with a Down-Up Pulley. The Down-Up is also very convenient for my flower hanging basket displays. \$14.95 Criteria for Choosing Greenhouse Tomatoes Your favorite outside garden tomatoes probably aren't the best ones for your greenhouse. Select varieties that have been specially developed for the greenhouse or that are highly disease resistant.
