Integrated Reporting

Integrated reporting (IR) in corporate communication is a "process that results in communication, most visibly a periodic "integrated report", about value creation over time. An integrated report is a concise communication about how an organization's strategy, governance, performance and prospects lead to the creation of value over the short, medium and long term."

Integrated reporting - Wikipedia

The International <IR> Framework defines integrated reporting as 'a process founded on integrated thinking that results in a periodic integrated report by an organization about value creation over time and related communications regarding aspects of value creation.'
