When Microsoft realized that the software-defined networking it was using to give Azure customers virtual networking wouldn't keep up when 40GB and 100GB NICs arrived, it took the same FPGAs running Bing in its data centers and turned them into smart network cards. The company had been using ...

Do Smart Network Cards Have a Future Outside Hyperscale ...

Germinal centers or germinal centres (GCs) are sites within secondary lymphoid organs - lymph nodes and the spleen where mature B cells proliferate, differentiate, and mutate their antibody genes (through somatic hypermutation aimed at achieving higher affinity), and switch the class of their antibodies (for example from IgM to IgG) during a normal immune response to an infection.

Germinal center - Wikipedia

Child day centers are child day programs offered to (i) two or more children under the age of 13 years in a facility that is not the residence of the provider or of any of the children in care or (ii) 13 or more children at any location.

Early Christianity (generally considered the time period from its origin to the First Council of Nicaea in 325) spread from the Eastern Mediterranean throughout the Roman Empire and beyond. Originally, this progression was closely connected to already established Jewish centers in the Holy Land and the Jewish diaspora. The first followers of Christianity were Jews or proselytes, commonly
