Causes. Therefore, the masculinising process that builds the genital tubercle, the precursor to the penis, is stillborn. When this happens, the child is born with both penile and testicular agenesis and is known by the slang term "nullo". This combination of both conditions is estimated to occur in between 20-30 million male births.

What a different young man I saw after a short time with the presence of this man in his life. Where I had seen disrespect and self-willed behavior, flagrant disobedience, I began to see a young man with self-control, and a spirit of cooperation, as well as respectful behavior and language, especially towards me, his mom.
