ctypes is part of the standard library, and therefore is more stable and widely available than swig, which always tended to give me problems.. With ctypes, you need to satisfy any compile time dependency on python, and your binding will work on any python that has ctypes, not just the one it was compiled against.

1 Version 7.0.0 (not yet scheduled) This release is still in beta test. The as yet unreleased 7.0.0 distribution will eventually be available from GitHub, instead of the current SourceForge repository. The main goal for the 7.0.0 release is to get the R version of PDQ accepted onto the CRAN package archive. This will take quite a bit of work so, check the Wiki on GitHub for development progress.
